

SAFETY AT HOME IS VITAL

Falls are the leading cause of injury and death in adults over the age of 65 and cost the healthcare system greatly in ED visits and hospitalizations. Falls or fear of falling can reduce the independence and quality of life of older adults.

It can be VITAL to have clinical insight into the daily life of your patient to prevent falls. The CDC has created a STEADI (Stopping Elderly Accidents, Deaths, and Injuries) initiative for physicians to implement and battle this common and costly problem.

VITALCARING GROUP CAN ASSIST ON IDENTIFYING AND MITIGATING THE RISKS FOR FALLS WITH A COMPREHENSIVE ASSESSMENT AND PLAN DEVELOPED IN THE PATIENT'S HOME:

01 Interdisciplinary team approach

02 Medication reconciliation and management: including OTC medications found in the home

03 Vital sign trend monitoring and reports

04 Home assessment and modifications

05 Diet and lifestyle education

06 Assistance to manage medical appointments and labs

07 Comorbidity management

08 VitalCaring Connection for high-risk patients for up to 60 days post home health discharge

VitalCaring is a national leader in the home health care and hospice industry. We're serving patients throughout the Southern United States, including Texas, Oklahoma, Louisiana, Mississippi, Alabama and Florida.

From our base in the South, we're expanding to serve even more communities nationwide. Call us today to find out more about the markets we serve.
